

2022

MILESTONE N°4

Release of the EMT (first version)

February 2022

Release of the EUMigraTool

According to the ITFLOWS Grant Agreement (Annex 1 – Part A), there will be a preliminary version of the EUMigraTool and a final version.

The first version will be tested by the UB. The final version will contain all applications integrated in an intelligent workflow. For each version, a deliverable will be released (D6.2 and D6.4).

At this stage of the project, we are submitting D6.2 (*Preliminary release of the EMT*) and presenting the first version of the tool, which is already available at <https://emt.itflows.eu/>

Main sections of the EMT website can be found under the “Dashboards” menu, where the submenus “Predictions” and “Attitudes” are displayed.

Before the end of the project (M28) we will submit D6.4 (*Report EMT Software release with documentation*) and we will update this document in our website accordingly.
